

## **COVID-19 VISITOR POLICY**

*October 2021*

We are welcoming visitors to our Soho offices again, and want to offer maximum peace of mind to both our staff and our visitors.

DHA staff attending the office are all fully inoculated – i.e., have had their second vaccination more than two weeks ago – and are undertaking regular lateral-flow tests.

We are asking all visitors, without exception, to confirm that they too are fully inoculated, and are also prepared to do a lateral-flow test on the day of their visit (obviously refraining from coming in if the test is positive). With these safeguards in place there is no need to wear a mask.

Lateral-flow test kits can be ordered free of charge via the government's NHS portal: <https://www.gov.uk/order-coronavirus-rapid-lateral-flow-tests>

If you are uncomfortable divulging your vaccination status or prefer not to do a test on the day of your visit, your DHA host will be pleased to meet you at another venue outside the office space.

Any changes to this policy will be posted on this page.

Many thanks for your understanding and we look forward to seeing you soon.
